

You and Avalon – A Team Concept

Avalon Admission, Inc. was founded in 2017 by Neil Chyten whose companies have helped more than 45,000 students achieve outstanding results academically, on standardized tests, and in college and private school admissions. A hallmark of Chyten's companies is exceptional curriculum and strategies that yield outstanding outcomes. As a result, Avalon Admission has earned a reputation for outstanding achievements. Just as important to Avalon is its decades-long focus on outstanding customer service. Families understand that if they are ever dissatisfied for any reason, their concerns will be addressed promptly and thoroughly, with the goal of complete satisfaction.

Avalon strongly encourages open communication. We view ourselves as your teammates, working collectively toward a shared objective: your student's success. While our industry expertise is extensive, no one knows your child better than you. Therefore, your insights are invaluable to us, and we welcome your involvement as we work together to help your family meet—or exceed—its goals.

Finally, Avalon Admission is committed to continuous improvement. We actively seek feedback from our families and, therefore, encourage you to share your thoughts, suggestions, and perspectives at any time. It is through decades of client input that Avalon Admission has evolved into what it is today, and it is through your continued feedback that we will further refine and improve upon our services for you and your family. Thank you for your confidence and your trust.

Sincerely,

Avalon Admission Administration
